

Local Literacy Plan Template: 2024-25 School Year

To support every child reading at or above grade level every year, beginning in kindergarten, and to support multilingual learners and students receiving special education services in achieving their individualized reading goals in order to meet grade level proficiency, a school district or charter school must adopt a local literacy plan that describes how they are working to meet that goal. A district must update and submit the plan to the commissioner by June 15 each year [Minn. Stat.120B.12, subd. 4a \(2023\)](#). With the purpose of assisting districts and charter schools, the Department of Education has developed this Local Literacy Plan template. The Local Literacy Plan must be approved by the Superintendent and posted to the district or charter school's website annually.

District or Charter School Information

Minnesota READ Act Goal

The goal of the READ Act is to have every Minnesota child reading at or above grade level every year, beginning in kindergarten, and to support multilingual learners and students receiving special education services in achieving their individualized reading goals [Minn. Stat. 120B.12 \(2023\)](#).

District or Charter School Literacy Goal

Describe the district or charter school's literacy goals for the 2024-25 school year.

Stonebridge has the following literacy goals.

- 50% of students will meet their spring RIT goal on NWEA
- 70% of PreK students will meet their goals on GOLD Assessment
- 5% growth on proficiency on MCA reading assessments.

Universal and Dyslexia Screening

Identify which screener system is being utilized:

- mCLASS with DIBELS 8th Edition
- DIBELS Data System (DDS) with DIBELS 8th Edition
- FastBridge: earlyReading (Grades K-1) and CBMReading (Grades 1-3)

Grades K-3 Screeners

Indicate in the chart below the assessment(s) used for universal and dyslexia screening for grades K-3 students, what skills are assessed with the screener, and how often the screener data is collected.

Name of the Assessment	Target Audience (Grades K-3)	What component of reading is being assessed? (Each component should be addressed.)	Assessment Type (Each type of assessment should be represented.)	How often is the data being collected?

Parent Notification and Involvement

Describe the method(s) that are used to notify parents or guardians when children are identified as not reading at or above grade level and the reading related services provided. Include what strategies are shared with parents/families to use at home.

Stonebridge World School notifies and informs parents on student reading skills and abilities in many ways throughout the year. We hold parent conferences once in the fall and once in the winter to inform parents. At our conferences we complete a student growth plan with each family that includes goals and strategies to improve reading. These goals and strategies are shared with families to work on at home.

We also send out report cards four times a year with specific comments on how students are performing in reading. Again, we list individualized skills that each student can work on.

Lastly, we send home weekly newsletters where teachers inform parents of the skills and strategies that have been worked on in class. This will provide home links and strategies for families to work on at home.

Student Summary Level and Dyslexia Screening Data 2023-24 School Year

For districts currently using one of the three approved screeners, if able, please include benchmark data in this submission. For those transitioning to an approved screener, you will submit data in June 2025.

Summary Data Kindergarten through 3rd Grade – Not done during the 23-24 school year.

For grades kindergarten through grade three, indicate the number of students:

- universally screened
- students at or above benchmark in the fall and spring.
- students screened for dyslexia
- students identified with characteristics of dyslexia.

Data-Based Decision Making for Literacy Interventions

Districts are strongly encouraged to adopt the [Minnesota Multi-Tiered System of Supports](#) (MnMTSS) framework. This framework should include a process for monitoring student progress, evaluating program fidelity, and analyzing student outcomes and needs in order to design and implement ongoing evidenced-based instruction and interventions [Minn. Stat.120B.12, subd. 4a \(2023\)](#). Component 5.1 of the MnMTSS framework provides indicators and criteria for effective data-based decision making. Component 1.6 and the MnMTSS Team Guidebook provide information on establishing effective linked teams for data-based decision making.

Discuss if and how the district is implementing a multi-tiered system of support framework. Indicate if the district or charter school is using the MnMTSS framework and if the district and school teams have participated in MDE professional learning cohorts. Specify if the district or charter school team has attended MnMTSS professional learning and/or conducted the Self-Evaluation of MnMTSS for District Leadership Teams (SEMI-DLT). Are there components/subcomponents that have been identified for improvement?

Describe the data and method(s) used to determine Tier 1 targeted evidence-based reading instruction for students and the processes for monitoring fidelity and intensifying or modifying Tier 1 instruction. Indicators and criteria for effective Tier 1 practices can be found in subcomponent 3.1 of the MnMTSS framework.

Describe the data and method(s) used to identify students not reading at grade level. Discuss the district's criteria for entry into Tier 2 and Tier 3 intervention, process for monitoring fidelity, type and frequency of progress monitoring during intervention, and criteria for exit from intervention. Indicators and criteria for effective Tier 2 and Tier 3 practices can be found in subcomponent 3.2 and 3.3 of the MnMTSS framework.

Stonebridge is in the process of adopting the Minnesota Multi-Tiered Systems of Supports (MnMTSS). We have begun to change the culture of our school to one of a PLC model where we are continually focused on collaboration and providing tiered supports to all students. We are in the process of getting staff trained in what PLC's look like and how to adopt common formative assessments to ensure we are able to identify students who need extra interventions to support learning.

Moving forward we have our tier 1 interventions as the whole class instruction that happens daily in the classroom. From there we have our tier 2 interventions built in daily with 20 minutes of what we call WIN (What I Need) time. Here teachers have the time to work on tier 2 and tier 3 supports if needed. We also build in an extra day and the end of each unit to provide tier 2 interventions if needed. Teachers are then continually comparing data and updating any tier 1 and tier 2 intervention strategies as needed.

With our tier 3 interventions we ensure that students do not get removed from tier 1 or 2 learning and that if they need this level of support that our SAT (Student Assistance Team) is involved. After going through our SAT team process and interventions have been established we then have dedicated trained staff who can pull students to work on their tier 3 interventions.

Professional Development Plan

Describe the district or charter school professional development plan for training educators on structured literacy. Include the name of the approved professional development program, timeline for completion.

Describe how the district or charter school will support the implementation of structured literacy and what data will be collected and how it will be used to assure continuous improvement.

As a school we have registered our staff for the OL LA Core training through MDE. We will have all of our staff who support literacy in anyway go through this training. As we have 3rd-6th grade students who are also behind in reading, our upper grade teacher are also in the phase one staff to be trained. By the end of the 24-25 school year, it is our goal to have all staff trained on structured literacy.

We will continue to create common formative assessments, use Fastbridge, NWEA, and curricular benchmark tests to collect data. We will then be able to determine what interventions need to be put into place for each student.

Provide the number of educators who have met the Minnesota READ Act professional development requirements through previous training, those who are currently in training, and those who still need training.

Phase 1: Educator Role	Total Number in District or Charter Organization	Educators who have completed Training	Educators with Training in Progress	Educators who need Training

Action Planning for Continuous Improvement

Describe what needs to be refined in the district or charter school's implementation of evidence-based literacy instruction. Provide a description of the next steps the district or charter school will take to improve implementation of evidence-based literacy instruction.

We will continue to work on building our MTSS system and implementing our PLC process. With doing this it will provide us better data to ensure we are meeting the needs of all of our students with tiered interventions. By doing this we will not only raise student achievement, but it will help us determine literacy instructional strategies are working and we need to refine.
